To this end, the following measures will be instituted and observed until further notice:

However, travel within the country will continue only with the use of HRAPF official vehicles and hired vehicles. Staff using such means should be well protected with masks and hand sanitisers provided by the organisation.
3. All other activities, including HRAPF’s own internal meetings, have been suspended until further notice. Such activities include paralegal trainings, dialogues, meetings, health workers’ and police trainings, paralegal sharing sessions and any other activities. In light of this measure:

   a. HRAPF staff will no longer conduct any activities that involve meetings of our clients or partners, nor will they participate in any meetings within HRAPF.

   b. HRAPF staff will not participate in any activities organised by any of our partners/clients until further notice.

   c. Donors and other partners will be continuously informed if there is need to delay any scheduled activities, as well as the resultant effect on implementation of any active projects.

4. We encourage staff, clients and other stakeholders to follow guidelines that shall from time to time be issued by the Ministry of Health and other Government institutions.

5. These measures may be revised from time to time depending on new developments that may arise concerning the situation.
